Amendment To Teck Private Placement

The Company announces that an amendment has been made to the terms of the financing arrangement reached between the Company and Teck Corporation ("Teck") announced on September 6, 1996. The private placement will now be by way of special warrants at a price of \$1.25 per special warrant, instead of 1,400,000 units as originally announced.

Each special warrant will entitle Teck to acquire, without further payment, one unit in the capital stock of the Company on the earlier of a date that is one year from the closing of the sale of the special warrants or the fifth business day following the date that the Company receives receipt for a final prospectus qualifying the units arising from the exercise of the special warrants for distribution in British Columbia. Each unit received from the exercise of the special warrant will be comprised of one common share, one "A" warrant and one "B" warrant. Each "A" warrant will entitle Teck to acquire one additional common share of the Company for a period of one year from the date of issuance at a price of \$2.00 per share. Each "B" warrant will entitle Teck to acquire one additional common share of the Company for a period of two years from the date of issuance at a price per share equal the greater of (i) the Company's prevailing market price, less the allowable discount calculated in accordance with applicable Vancouver Stock Exchange policies, as of the date of each exercise thereof; or (ii) \$2.75.

The Company has undertaken to provide its best efforts to obtain receipt to the filing of a prospectus to qualify the distribution of the units upon the exchange of the special warrants.

The private placement of special warrants is subject to the approval of the Vancouver Stock Exchange.

ON BEHALF OF THE BOARD OF DONNER MINERALS LTD.

"David Patterson"
Chief Executive Officer
